

Good morning, ladies & gentleman, Bapak dan Ibu. salam sejahtera untuk kita semua.

This October, Petra Christian University hosted the international and national events at the same time. PAAU 06 and APTARI Working Meeting 2018.

It is a great honor for us to accept you all and Let me introduce you to each other.

The platform for Asian Architecture and Urbanism (PAAU) is a collaborative collaboration between architectural higher education in Asia initiated by Dr. Apiradee Kasemsook and Dr. Chiu Kuo-Wei. PAAU's agenda is an annual workshop for students from undergraduate, professional program dan postgraduate program, and this year is PAAU's 6th agenda. This five days workshop is a series of city observation activities, lectures, discussions, presentations and exhibitions. The theme is "Embedding Fluidity" where students from various background knowledge from six Asian cities have been invited to see three areas: Kampung Ketandan / Kebangsren, Surabaya, Kampung Kemas in Gresik and Kampung Ampel in Surabaya. Cooperating in groups with various cultural backgrounds and knowledge in a short time may be not easy, and Our challenge is that the students can produce critical thinking and new ideas from this activity.

Later, I would like to introduce the PAAU participants:

1. Taylor's University - Selangor, Malaysia. 1 lecturer, Dr. Camelia May Lie Kusumo
2. Universiti Tunku Abdul Rahman - Kuala Lumpur, Malaysia. 7 students, and 1 lecturer Mr. Sebastian Yeow
3. Silpakorn University - Bangkok, Thailand. 10 students, and 2 lecturers: Dr. Apiradee Kasemsook and Mr. Nantapon Junngurn.
4. Kunming University - Kunming, China. 8 students, 2 lecturers: Ms. Tan Liang Bin & Ms. Zhang Xinyan.
5. KRVA University - Mumbai, India. 18 students, 1 lecturer: Mrs. Mansi Rajendra Bhatt.
6. Tunghai University - Taichung, Taiwan: 12 students, 1 lecturer: Dr. Chiu Kuo-Wei
7. Petra Christian University- Surabaya, Indonesia. 29 students, 8 lecturers: Ms. Altrerosje Asri, Mrs. Aniendya Christianna, Mr. Stephen Yona Loanoto, Mr. Bram Wayne, Mr. Clifford Sutedjo, Mr. Bramasta Putra Redyantanu, Dr. Rully Damayanti and myself. Dr. Rony Gunawan Sunaryo.

And then,

APTARI Indonesian Association of School of Architecture is an association that facilitates communication and collaboration between architectural higher education and has the aim of improving the quality of architectural education in Indonesia. Established in 1998, APTARI now has 104 architectural school.

APTARI's agenda is an annual meeting by gathering all Chairmen of the Architecture Study Program from each member university. The 2018 meeting is a series of board meetings, architectur firm visits, discussions with professional associations, seminars and discussions. This year's theme is "Trend of Architecture Education in Indonesia". The number of participants this year reached 200 participants, and this is the biggest one in the history of the APTARI meeting.

This morning we could only invite a small part of APTARI member to meet with PAAU colleagues because of the space limitation. So now, Let me introduce our colleagues: Al-Qur'an Science University (UNSIQ)

Mrs. Adinda Septi Hendriani; Mrs. Muafani,
